Use **RADCAB** to Evaluate a Source

**Relevancy**

- What keywords were used for the search?
- Does the information seem relevant to your research?

** Appropriateness**

- Is this information too simple, too difficult to be useful, or just right?
- Is it appropriate to my core values?

**Detail**

- Does this information deserve to be in my list of sources?
- Does this information provide a useful “depth of coverage”?

**Currency**

- When was this information published or last updated?
- Is it current enough for my research?

**Authority**

- Who is the author of this information?
- With what institution or organization are they affiliated?

**Bias**

- What is the domain name? (www.DOMAIN.com)
- What is the domain suffix? (www.domain.DOMAINSUFFIX)
- Does this information want to inform, persuade, entertain, or sell something to me? (circle one)
